

## Transition of Care Form

(To be used when a member changes from another Medical Group to Affinity Medical Group)

Our goal is to provide benefits for continuity of care for any new member of Affinity Medical Group who is receiving prenatal care or is in *active treatment for an acute or chronic condition with a non participating provider*. Visits through the current period of active treatment or up to 90 days, depending on the care needs and circumstances will be approved. If the member chooses to continue her prenatal care with an out of network provider, the visits may be approved if the member is receiving prenatal care during the second or third trimester of pregnancy and will continue through the provision of post-partum care directly related to the delivery.

If you or any covered family member are receiving care of this kind from a non participating provider, please complete this form. Any information provided will be kept confidential by Affinity Medical Group and will only be used in accordance with applicable privacy laws. Affinity may share this information with your primary care provider (PCP) and/or specialist and may be in contact with you to facilitate continuity or continuation of care.
